Bengaluru, Karnataka, India 📍 shannswami1234@gmail.com ☎ 8250869827 📱 in/shantanuswami 🌐 <https://shantanuswami.tech>

## SUMMARY

Motivated software developer with a strong foundation in programming languages such as Java and Python. I am seeking an opportunity as an intern to apply theoretical knowledge and gain practical experience in software development. I am a quick learner with a passion for solving complex problems and collaborating with cross-functional teams.

## EXPERIENCE

### Data Analyst | Edulyt India | New Delhi, IN | December 2023 - Present

- Analyzed large datasets using Python and SQL to identify trends, patterns, and insights.

### Web Developer | iNeuron.ai | Bengaluru, IN | August 2023 - November 2023

- Designed an e-learning platform using HTML/CSS that effectively facilitated the delivery of online course content and quizzes, allowing for better student engagement.

### Java Developer | iNeuron.ai | Bengaluru, IN | August 2023 - November 2023

- Coded, tested, and implemented a college library management project using Java while working as a Java programming intern.

## PROJECTS

### Land Record Management using Blockchain | Self | [https://github.com/jaibhedia/NPB\\_LandRecordManagement](https://github.com/jaibhedia/NPB_LandRecordManagement) | September 2023 - Present

- It's an NFT Based Land Records Management, uses Blockchain technology to allow users to buy and sell land and manage their records safely and securely using the IPFS storage system.

### BaatCheet | Self | <https://github.com/jaibhedia/BaatCheet2> | December 2023 - January 2024

- A random video calling app made on Flutter that allows strangers to connect with each other.

### NPB\_Academy | Self | [https://github.com/jaibhedia/NPB\\_Academy.git](https://github.com/jaibhedia/NPB_Academy.git) | December 2023 - January 2023

- AI-powered platform to allow users to get their customised roadmaps and lessons for their learning. Helping many students by giving them a customised plan with no fees

## EDUCATION

### Bachelor of Engineering in Computer Science and Design | Dayananda Sagar Academy of Technology and Management | Bengaluru, IN | 2025

## CERTIFICATIONS

### Generative and Responsible AI | Google Cloud | 2023

- Learnt the basics of generative AI and how to keep it professional and responsible.

### Generative and Responsible AI | Google Cloud | 2023

- Acquired knowledge of the fundamentals of generative AI and appropriate and professional usage.

### Data Visualization in Tableau | Coursera | 2022

Certified in Data Visualization which is in industry demand.

### Startup India | Udemy | 2022

Certified on the field of entrepreneurship.

## INVOLVEMENT

### Kharagpur Winter of Code | IIT, Kharagpur | KOSS | October 2023 - Present

- Contributing to the open-source projects listed on the website by identifying, troubleshooting, defining, and fixing bugs; streamlined the process for bug fixes, resulting in faster resolution.

### Contributor | DSATM | GSSoC'23 | May 2023 - Present

- Contributed in the GSSoC'23 open source program.

### Member | DSI | Google Student Developer Club | March 2022 - Present

- Active member of this esteemed club, contributing in its outreach and activities.

### Mentor | IIT Patna and IIT Guhawati | CodePeak | December 2023 - January 2024

- Mentored many students about different projects by clearing their doubts, reviewing code, and giving feedback, and helped them kickstart their open source journey.
